CLAIMS AGAINST GARFIELD'S ESTATE. SOME VIEWS OF THE CHAIRMAN OF THE BOARD OF AUDIT.

TRY TELEGRAPH TO THE TRIBUNE.

Washington, Aug. 29.-Judge Lawrence was found by a TRIBUNE correspondent to-day, as he was preparing the forms to be signed by persons putting in claims on account of services or expenses meurred during President Garfield's illness. remarked that anyone bringing a claim to the Board of Audit, of which he is chairman, must sign a release, so that the claim could never be presented to the Garfield estate after coming before his

"It is very plain, Judge," said the correspondent, "that the amount your board has to spend will not begin to cover the amount of the claims put in."

"It certainly will not," was the reply.

"Is there any provision for excesses ?" "None whatever," said Judge Lawrence, and he pointed to the law, which says the amount allowed by this board shall not exceed the sum set apart in this act for the payment of these claims.

"Suppose Mr. Somebody who has a claim turns up his nose and will not take the amount allowed by this Board of Audit, where is the appeal ?"

'He has no appeal in this matter, so far as I know, since this Board was appointed to close it up. Of course he can go to Congress, if he chooses. I might go to Congress, if I chose, with a bill of I might go to Congress, if I chose, with a bill of \$15,000, a debt as honestly due me as ever one was, in a case or my own, which turned \$1,000,000 into the Treasury of the Goverhment. My chemts refused to pay and I was left with the money due me, for which I might ask Congress as properly as any man who is dissatisfied with the award of this board; but I shall not do so."

"Then what becomes of a claim in case a claimant is dissatisfied with the award of your board and goes to Congress for a larger amount?"

"In that case he can go to Congress and get his larger amount, if it shall be allowed, or come back and take the sum allowed by this board."

"Suppose a claimant, seeing that the amount in the hands of the board is not sufficient to cover all that is asked, does not present his claim at all?

"Then of course he has to do with the estate, and not with us, and in that case he will not sign the form I am now preparing."

"BILL NYE" ACCEPTS A POSTMASTERSHIP. IBY TELEGRAPH TO THE TRIBUNE.1

WASHINGTON, Aug. 29 .- Among the latest commissions issued by Acting Postmaster-General Hatton is one to "Bill Nye," lately appointed postmaster at Laramie City, W. T. Nye is the Editor of a paper called The Daily Boomerang. In accepting the nomination he says:

ing the nomination he says:

IARANIE CITY, W. T., Aug. 19, 1882.

To My Dear General: I have received the news by relegraph of my nomination and confirmation as postmaster at Laranie, and wish to extend my thanks for the same. I have eigered an entirely new set of boxes and post office outfit, inclinding new corrugated cuspidores for use of clocks. I book upon the appointment myself as a triumple of eternal truth over error and wrong. It is one of the epochs, as I may say, in the Nation's onward march toward political curity and perfection. I don't know when I have noticed any strile in the affairs of state which so thoroughy impressed me with its wisdom. Now that we are co-workers in the same department, I trust that you will not teel say or backward in consulting me at any time relative to matters concerning Post Office Department affairs. Be perfectly frank with me, and feel perfectly free just to bring anything of that kind right to me. Do not teel relicate because I may appear at those cold and reserved. Pernaps you think I do not know the difference between a general delivery window and a three emignal, but that is a mistake. My general information is far beyond those of my verse. With profoundest regards, i remain sind of my verse. a general delivery window and armitted is far beyond these is a mistake. My general information is far beyond these of my years. INSPECTION OF FOREIGN VESSELS. Washington, Aug. 29.-The Secretary of the Treasury has under consideration the best plan of carrying into effect the provisions of the sections of the Revised Statutes applicable to the inspection of foreign passenger steam-vessels indicated in amendment to See tion 4,400 of the Revised Statutes approved, August 7, 1882. The first step to be taken is the appointment of Sixteen special inspectors of foreign steam vessels, of whom six are for duty at New-York two at Boston, two at Battimere, two at Philadelphia, two at New-Orleans, and two at San Francisco. Some difficulty has been ex-perioned in the selection of these inspectors, and the list will hardly be completed for two or three weeks. The Supervising Inspector-General will prepare the reg-ultifions for the guidance of the special inspectors, as soon as the Secretary can give his attention to the matter. sixteen special inspectors of foreign steam vessels, o

PRACTICE OF THE RIFLE TEAM.

ALL THE MEN SHOOTING AT CREEDMOOR. A MARKED IMPROVEMENT SHOWED IN THE SCORES-

RESULTS OF SYSTEMATIC TRAINING. All the members of the American Military Rifle Team shot in practice at Creedmoor yesterday. It was the first time since the selection of the team that all the men were together throughout the day, and, all things considered, the work done was perhaps the most profitable to the team that they have yet done. The shooting was directed with great care by Colonel Bodine and his adjutant, Captain Robbins, and valuable hints were given the uneu by Mr. Rathbone and Dr. S. T. G. Dudley, who sat at the firing points all day. Most of the men shot two strings of seven rounds each at the short range, which, together with the deliberation that characterized every movement, made it impossible to go over all the ranges, and only sighting shors (to get a record of the elevations) were taken at 800 and All the members of the American Military Rifle

together with the deliberation that characterized every movement, made it impossible to go over all the ranges, and only sighting shors it og get a record of the elevations) were taken at 800 and of the elevations were taken at 800 and 900 yards. The atmospheric conditions were not the most favorable, the sun throwing a glaring, though steady, light on the targets all day, and the wind being shifting and pully. Besides, owing to the strong heat after the fain of Sunday, there was an annoying mirage.

The scores made showed a very marked improvement over those made on the last practice day, though the averages were kept down to below what can be safely counted winning figures by the misfortunes of four or five marksmen. On last Thursday the average of the first twelve men at the three distances of the first stage (200, 500 and 600 yards respectively) were 25 1:12, 29 4:12, and 26 4:12; the average for the stage being 84 1:12. Yesterday the averages at the same distances of the first stage (200, 500 and 600 yards respectively) were 25 1:12, 29 4:12, and 26 4:12; the average for the stage being 84 1:12. Yesterday the average of the first twelve men at the three distances of the first stage (200, 500 and 600 yards respectively) were 25 1:12, 29 4:12, and 26 4:12; the average for the stage being 84 1:12. Yesterday the average being only four points short of all bullseyes. On such a record at three or four of the ranges the team need have no apprehension of defeat from the Britist volunteers. The improvement extended all along the line. The total number of points at the extreme distance was 336, the average 21. The last figure, however, is ruised to 23 5-12 by the omission of the source of the four men below the team of twelve, whereas on Thursday that the average of the first welve men was only 20 3-12. These are hopeful signs and are doubtless largely due to the systematic team-training which the men are receiving. An idea of the plan which is being followed can be derived from one incident of yesterday's meeting. alte team-training when the men and a delice of the plan which is being followed can be derived from one incident of yesterday's meeting. The indications are that three rifles will be used by the team, Colonel Bodine deeming it hexpedient to Insist on uniformity in this regard against prejudices and predilections of the men. Captain Griffith, Mr. Smith, Mr. Og len and Mr. Hinds adhere to the Sharp's Military, with which they wen in the competition; Sergeants Paulding and Van Hensel have taken up the new Hotchkiss, while the remaining men shoot with the improved Hepburn. The variations in their arms have been subjected to investigation, and yesterday each member of the team was given a written memorandum to aid him in regulating his cievation. The tenor of these memorandums can be seen in the following note relating to the Sharp's rifle:

THE BROOKLYN ABDUCTION CASE.

NO TRACE OF THE STOLEN GIRL FOUND. ACTIVE SEARCH BY THE POLICE-A DESCRIPTION OF THE WOMAN SECURED—NO MOTIVE FOR THE

ABDUCTION. The Brooklyn police were actively at work yesterday trying to trace little Lizzie Seldon, who was abducted by an unknown woman on Monday afternoon from in front of her parents' St.

No plausible theory is yet advanced for the abduc-

No plausible theory is yet alvanced for the abduction. The fact that the woman inquired of the children for a person whom they knew shows that she was acquainted in the neighborhood. It was not the brother of the missing girl who went with her to show the way, but Edward Sherwood, age nine, a neighbor's child, with whom Lizzle Seldon was playing. There were two servants in the house, who had been directed by Mrs. Seldon to look after the children. They allowed the little girl to play in the street. When she went with the woman it was as far as a drug store in Fulton-st, near Cumberland-st, There the woman induced the boy to wait on the corner, giving him two postage stamps. After he got fired of waiting he went bone with the doil-carriage of the girl. At the drug-store it is remembered that a woman and child came in, and an advertising card was given to the latter. An operator in a telegraph office close by saw them when they went away. When last seen they were in Fulton-st, about 5 o'clock.

It was not until after Mr. Seldon's return from

It was not until after Mr. Seldon's return from It was not until after Mr. Seldon's return from business that the police were informed of the matter. Mr. Seldon said yesterday that he could not magine why the child should be stolen. Neither he nor his wife had any enemies, so far as he knew. His work was all in New-York and he had few Brooklyn acquaintances. There had never been any trouble with the servants in his family. and the girl."

Mr. Seido i could give no further information in the matter hast evening. He is employed as a civil engineer oy the firm of W. P. Cydie & Co., in this city, and has a large number of men under anal. He said yesterday that he knew of no one of them who had any hard feeling against him and he berieved that they would all go in a minute to helo search for his little girl. Mr. and Mrs. Selcon have two that children one order and the other for instittle gril. Mr. and Mrs. School mayer two other children, one older and the other younger than the girl who is lost. An unfounded rumer was surred in Erooklyn yesterday that Mr. School had been married before, and had recently been receiving aboutmous letters. Both statements were absolutely denied. Mr. School gave his whole time yesterday to the scarch for his civil, and alred the police in every way oscioles.

A dispatch was received in this city yesterday that created some alarm among yachting peopl and their friends. It came from Atlantic City, J., and stated that parts of the cabin yachts Fleet Ming and Katy had been washed ashore an wing and Katy had been washed gahore and it was supposed that the yachts had loundered in the gale on Sunday night and that all on board had been lost. A Tribuya reporter called upon several members of the New-York Yacht Club to inquire about the report. They all scouted the idea that the Pleetwin , of their club, had been lost, and said that they be not know of a yacht called the Katy. The theory sevenaced was that the boats were small, open yachts that belonged at some other port.

At the house of R. S. Elliott, the owner of the Fleetwing, of the New-York Yacht Club squadron, it was said into last night that Mr. Elliott's yacht was lying down in the bay. Mr. Elliott has frequently stayed on his vessel over night for a week or more pagt, and it was supposed by his servants last night that he was there. It was stated that Mr. Elliott had come from his vessel to his house yesterday in strang and that one of the crew was sleeping in the house last night.

BUTCHERS' CURIOSITY AROUSED.

Considerable curiosity has been manifested y the retail and wholesafe butchers of Washington Market as to the ownership and process purposes of the sarre wood and iron refrigerator new building on the bulkhend at the foot of Devoe-row in West Washingto Market. A Taint's Kreporter yesterday asked Mr. Ket-

bulkhead at the foot of Devoe-row in West Washington Market. A Thibusk reporter yesterday asked Mr. Kettleman, the clerk of the market, who it was that was erecting the building.

"That is a commidium," said Mr. Kettleman, "that ean't be solved down here. Nobedy has been able to discover who it is that is building it further than it is supposed that they are Chicago people."

Inquiry was made of the foreman of the inborers and all the workmen emassed in putting it up. They all professed utler tipotrance. The reporter called on Otto Beinnecke, who, he was fold, knew all about it. Mr. Beinnecke keeps a large butchering establishment in Fulton-St. "I am as anxious to find out the owners as you are yourself," said he. "I know nothing about it. This morning I met Mr. Eastman, the cattle shipper, and he asked me if I was putting it up. I told him I was not. I know this much about it, however: the only two Chicago firms that are sending this meat East are George H. Hammond and Swift Brothers. They are competing for this trade and each is trying to get its meat over the railroads into New-York. The railroads will not bring dead meat if they can help it, because in transporting a live steer they are paid for I,500 pounds white a carenss weighs only 700 pounds. Naturally they refuse to offer facilities; that is, the railroads running into New-York do, Now I will tell you a little story. Last week Mr. Hammond came to this city from Chicago. He came to see me and said that he had been telegraphed notice of this retrigerator which was going up here in Washington Market and had come on to see who it was that was putting it up. He was mashed to find out and returned to cheago. In the measuring this retrigerator beef into Baltimore in such quantities that the wholesale bucetiers there have held a meeting to take some action to save themselves. It is my opinion that the Swifts are having this refrigerator mind to the Baltimore and Ohlo Raiiroad."

At the Bureau of Buildings it was learned that the refrigerator was being built b

OUT-DOOR SPORTS.

LAWN-TENNIS AT NEWPORT. TOURNAMENT TO BEGIN TO-DAY-THE MOST

NOTED PLAYERS TO TAKE PART. FROM AN OCCASIONAL CORRESPONDENT OF THE TRIBUNE. Newport, Aug. 29.—The lawn-tennis tournament which opens here to-morrow promises to be most successful. Nearly all the best players have entered. Among them are Sears, the champion, Van Rensselaer, Dr. Dwight, Clark, Raukine, Conover and a host of others; in fact, scarcely a name of note is absent. The only absenters to be noticed are Mr. Davidge, of the Staten Island, and Mr. Navarro, of Seabright. The drawing for

first ties resulted as follows: First, Thorne vs. Newbold; second, Paton vs. Rathone; third, Powell vs. Woodman; fourth, Coleman vs. Benson; fifth, Dwight vs. Boardman; sixth, Nightingale vs. Draper; seventh, Rives vs. Thomas; eighth Miller vs. Rankine; ninth, Allen vs. Carryl; tenth, Le roy vs. Smith; eleventh, Kneeland vs. Van Rensselaer; tweifth, Conover vs. Butler; thirteenth, Brown vs. Bati-lle; fourfeenth, Sears vs. Johnson; afteenth, Gray vs. Agassiz; sixteenth, Brooks vs. Malcolmson; seven-teenth, Glyn vs. Hynes; eighteenth, Clark vs. Post; nineteenth, Boit vs. C. M. Clarke; twentieth, Harnorard vs. Eldridge.

Entries for the doubles are:

First, Thorne and partner vs. Rankine and Eldridge

ers. The first ties in the doubles will not bring any of the best teams together. Dwight and Sears have drawn

All the large towns have furnished a contingent. Bos. ton is well represented by Dr. Dwight, Mr. Van Rensselaer and Mr. Sears; New-York sends Mr. Glyn, Mr. Hynes and Mr. Rankine; from Staten Island come Mr. Ediridge and Mr. Paton; Philadelphia Turnishes Mr. Clark and others. Still a glance at the list shows that the game has not yet travelled very far from the East-

with the servants in his family. One girl left the family after being in it six years, but only on account of her health, and she had come back to see the children several times. The police authorities do not believe that the child was stolen to secure a reward, as her parents are not weathy, but the theory is held that the woman took the girl to beg for her. Much interest was taken in the case yesterday in Brooklyn, and children playing in the streets were carefully watched by their parents or those in charge of them. Mr. Schlon's neighbors did all their power to aid in the search for the child. In this city Acting-superintendent Thorne sent out a general alarm, giving the information furnished by the Brooklyn police, and directing a search to be made for the woman and child in all parts of the city. Mr. Schlon called to see Mr. 1000 that the police of this city would do everything in their power to the first girl had been nidented, but he lad no proof that she was taken to this city.

Upon further investigation the supposed elews which were reported to the Brooklyn police vesterday afternoon proved valueless, and at a late in a might the police were cultively buffled in the search for the mussing cit. I was learned, however, that the place where the woman purchased the candy tor the child was a takery at Lafayette-ave, and Cumberlandst, where candy is sold, the proprietor describes the woman as about 4 o'clock on Monday afternoon. The matter was put in the hands of the police about three hours laiver, and under the direction of Acting-inspector Folk that evening and of Inspector Folk that evening and of Inspector Jewett yesterday unrematting efforts were made to find the child. Police Superintendent Campbell returned to Brooklyn just evening from its vector and the matter was put in the lands of the police about three hours laiver, and under the direction of Acting-inspector Folk that evening and of Inspector Jewett yesterday unrematting efforts were made to find the child. Police Superintendent Campbell retu it will be as triumplant here as on the other side.

For the doubles the chances would seem in favor of Dr., Dwight and \$11. Sears, or Mr. Van Hensselaer and Mr. Newbold. Both of these teams are used to play together. Dr. Dwight and Mr. Sears played admirally up to one another at Staten Island recently, as did Mr. Van Hensselaer and Mr. Newbold. Probably the Boston men are the strongest, more especially as in a double court ir. Van Rensselaer's voiley play is not so formiliable as in a single court.

BASEBALL GAMES.

About 2,000 people witnessed the tenth contest at the Polo Grounds yesterday between the Metrosulted in an easy victory for the home team, who out played the crack League nine at every point. The Providence nine taced the delivery of Valentine for the first time, and hispitching was so effective that they made only four single hits. The visitors played rather loosely in the field, particularly Farrell, who made several glaring errors. The Metropolitans played a model game, not making an error. Nelson, Brady, Reilly and Kennedy made some braidant plays, and were frequently applicated. Nelson led at the bat for the "Mels," and troy for the Providence team. The contest was the third victory for the home team over the Providence nine. A summary is as follows:

The races were continued at the Brighton

Beach track yesterday. The weather was all that could be desired but the track was heavy. The pleasure of many of those present was marred by the defeat of a horse in the last race through the carclessness of the miniature jockey, J. Caldwell. The races were given to the following horses: Fellowplay, Blackmore, Ida B., Camillus and Wakefield. The third race was thought to be Bouncer's before half the distance had been run; but to the surprise of everyone, Ida B. drew up and passed her when a mile and a quarter had been run, and won the race. The filly Bouncer had been under a strong pull, and the jockey, Barrett, seemingly made little

effort to overtake Ida B. Katie Creel ran so poorly that

it was generally supposed that she had been allowed to drink heavily of water just before the start. A partial investigation was made by the judges, but the frand could not be placed at anyone's door and the matter was dropped. Upon investigating the auction pools sold if was found that the owner, William Lakeland, had best heavily on his filly Bonneer to win, and he was cleared of all blame. There were rumors, however, that he had not bet so heavily as reported. Barrett, who rode Bonneer, is generally considered in honest jockey; but his riding yesterday showed that he had either been bought or had used remarkably poor judgment for one of his reputation. It is noticed lately that the better class of persons do not flock to the track now. Mr. Woodford, the owner of Ida E, was positive that no one had approached him in regard to a division of the purse, providing his entry was allowed to w nit. A jockey was ruled off the track for fraud Wednesday. A few owners may be made to follow.

MICHIGAN WHEAT DAMAGED.

DETROIT, Aug. 29.-Returns are published this morning from every wheat-producing county in the State. The most serious loss is reported from Cass and Van Buren Counties, and in the victority of Jonesville, Hillsdale County, the damage has resulted very targety from imperfect stacking. Farmers expected soon to thresh, and did not anticipate such a succession of rains and continuance of unfavorable weather. Wheat, therefore, in not a few instances, which was supposed to be secured was found to be materially injured in stack. North of these counties, including the central and northern wheat-producing sections of the State, a large amount of wheat was out in stack and considerable still uncut, while a portion of that which was stacked was hurt. In some of the more northern counties nearly the whole crop was exposed to a ten days' storm. In the central part of the State, Ingham, Ionia and Eaton Counties suffered most severely, nearly, if not quite, half the erop being seriously damaged; while the products of Gratiot, Genesee, Haron, Lapeer and Macoma. Counties were even more badly dealt with. From the tenor of those returns it is evident that the crop suffered severely, and that an average of at least 25 to 30 per cent of the produce of the whole State was reduced at least one or two grades, or as much hard as to be it only for feed. Upon the basis of a 35,000,000 bush is crop at least 9,000,000 to 11,000,000 bashels wound be a moderate estimate of the extent of the injury. The outhool for corn is at least a fair one. The out crop is the largest ever intreested in the State. The apple crop will be a very light one. Gratiot, Genesee, Haron, Lapeer and Macoma Counties
